DETAILED ACTION

Request Continuation Examination

1. The request filed on 9/27/2006 for a Request Continuation Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 09/590,496 is acceptable and a RCE has been established. An action on the RCE follows.

Response to Amendment

2. The examiner acknowledges the applicant's submission of the amendment dated 9/27/2006. At this point, claims 1 and 21 have been amended, claims 19-20 and 25-29 have been cancelled. Claims 1-18 and 21-24 are pending in the instant application.

Response to Arguments

3. The applicant's argument that Inagawa et al. in view of Hayasaka et al. are silent with respect to an asymmetric supercapacitor comprising an aqueous electrolyte solution selected from the group consisting of aqueous solutions of hydroxides of alkali metals, aqueous solutions of carbonates of alkali metals, and mixtures thereof. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.

Allowable Subject Matter

4. Claims 1-18 and 21-24 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 24, the prior art alone or in combination does not teach the limitation of an asymmetric supercapacitor comprising an aqueous electrolyte solution selected from the group consisting of aqueous solutions of hydroxides of alkali metals, aqueous solutions of carbonates of alkali metals, and mixtures thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation Relevant of Prior Art

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Kim et al. (US 6,665,172) disclose solid electrolytic capacitor.
- b. Sano et al. (US 6,519,135) disclose chip capacitor and method of manufacturing the same.
- c. Yamagami (US 5,661,628) discloses fused surface mounting type solid electrolytic capacitor.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T. Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.
